

All,

The City of Cedar Falls has awarded the 2018 Street Construction to Peterson Contractors Inc. of Reinbeck, Iowa. This contractor will be reconstructing/repairing portions of sixteen (16) streets as a part of this project. Funding for this project is provided by the 1% Local Option Sales Tax.

Beginning as early as **Wednesday, August 1, 2018**, the contractor will begin stage 2 by closing the alley from West 5th Street to north 150'. In order for the contractor to begin work and pavement removal, a complete closure will be required. The closure will be in effect for **three to four weeks**, depending on the weather.

For safety's sake, please stay away from the construction area, as heavy equipment will be operating on the closed alley. During the closure, alternate garbage pickup points will be required for residents having automated collection within the closure area. Residents may place their collection carts on W. 4th Street or W. 5th Street outside of the closure area. This should be done on the normal collection day for the particular street and carts should be retrieved on the same day.

If you want additional information about the 2018 Street Construction Project, please visit the project web page at www.cedarfalls.com/StreetConstruction.

If you have any questions or concerns during the course of construction please do not hesitate to contact me.
