### Legend

Road Closed

Temporary Road Closure during Asphalt Placement

All,

Starting as early as Wednesday, May 20, 2020, construction will begin on Ashland Avenue from Acorn Lane to Pin Oak Drive. You may expect the following sequence of activities:

- Curb and Gutter Spot Repair

The roadway will remain open during these removals but may be limited to access from one end or the other depending on where the contractor is working. During this construction, street parking and driveway access along Ashland Ave may be limited. The contractor will post "No Parking" signs along the street prior to the start of construction. Once these are posted please be sure to relocate your vehicles out of your driveway if impacted.

There will likely be a gap of one to two weeks after curb and gutter repair to allow for curing of the concrete and scheduling of mill and asphalt arrival.

- Base Pavement (Asphalt)

The base will be placed in one day and may be driven on soon thereafter. During this placement, no access will be allowed on the street or to driveways.

- Surface Pavement (Asphalt)

Surface paving will take place in one day and may be driven on soon thereafter. During this placement, no access will be allowed on the street or to driveways.

- Sod Replacement

Following the construction of the street, the contractor will begin restoring the sod along the curb-line and driveways where disturbed from curb and gutter replacement. Depending on the time of year and weather conditions, this process may take up to an additional three to four weeks.

Weather permitting, this construction process will take approximately **three (3) weeks** with additional time for sod replacement. Thank you for your cooperation. If you have any questions or concerns, please contact me by phone, fax or email as listed below.

Sincerely,

Jon Fitch, PE, Principal Engineer
